I. CHURCH TIME

This lesson will establish that there are other ideas about how the world began, why we are here and what evolution is.

2. BIBLE TIME

READ:

- Genesis 1:27-2:25

MAIN POINT:

Some Christians will try and merge evolution and creation. God could have created the world through evolution because He is all-powerful, but this idea leaves out the fact that man was created in God's image. We are God's kids and we look like Him, just like our kids look like us. God the Father created children that He could love.

QUESTIONS TO ASK:

1. Why did God create Adam & Eve? (He wanted fellowship)
2. How do we know this? (He created man like Him so they could fellowship)

DISCUSS:

- God created everything we see.
- Some people don't believe that God created us, they believe that we "evolved."

3. FAMILY TIME

MAIN POINT:

God CREATED man, we did not just happen.

WHAT YOU NEED:

- Favorite family dinner or one of YOUR specialties.

QUESTIONS TO ASK:

1. Talk about what was involved in preparing your special dish.
2. What else has a lot of detail? (Human body, animals, buildings, etc.)

DISCUSS:

- All of these things could not have "just happened."
- There is a lot of detail put into everything that we see, hear, touch and taste. God is the great designer.
